Category:	UI	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Invalid	**Affected version:**	6.1.0

Description

Hello,

I tried the new REDMINE 6.1.0 this morning.

But no action is taken: add a new issue, click on "Go to a project...".
When you click on a link <a> no problem, the rest: nothing happens.

```
Environment:
  Redmine version                6.1.0.stable
  Ruby version                   3.4.6-p54 (2025-09-16) [x86_64-linux]
  Rails version                  7.2.2.2
  Environment                    production
  Database adapter               PostgreSQL
  Mailer queue                   ActiveJob::QueueAdapters::AsyncAdapter
  Mailer delivery                smtp
Redmine settings:
  Redmine theme                  Default
SCM:
  Git                            2.39.3
  Filesystem
Redmine plugins:
  no plugin installed
```

History

#1 - 2025-09-22 10:21 - Brice Beaumesnil

Even though it's unrelated, the new REDMINE looks for the turndown.js file and returns a 404 error.

#2 - 2025-09-22 10:37 - Brice Beaumesnil

I just tried debugging from my workstation: no problem. So it's the installation in production mode.

#3 - 2025-09-22 14:28 - Brice Beaumesnil

My production installation work fine with REDMINE 6.0.7 (and Gemfile from 6.1.0 for using RUBY 3.4)

#4 - 2025-09-22 16:59 - Brice Beaumesnil

OK, my bad, after checking the deployment: the app/javascript directory had not been deployed with everything else following the update from REDMIN 6.0 to 6.1

It's OK

#5 - 2025-09-22 17:13 - Holger Just

- Status changed from New to Closed

- Resolution set to Invalid

Thanks for clearing thus up!
