Redmine - Patch #4351

Plugin admin links broken in admin/index

2009-12-07 00:22 - Jean-Baptiste Barth

Description

In app/views/admin/index.rhtml, we have a "menu_items_for" block (from r2022) to allow plugins to insert their own links there. Method definition has changed in r3090, but not this view, and "caption" is not yielded anymore, so these links are broken (if I'm not mistaken).

Maybe the actual block should be replaced with something like this :

```
<% menu_items_for(:admin_menu) do |item| -%>
  <%= content_tag 'p',
    link_to(h(item.caption), item.url, item.html_options),
    :class => ["icon22", "icon22-#{item.name}"].join(' ') %>
<% end -%>
```
