

Redmine - Defect #4366

Bulk edit of issues throws 500 if no versions are defined on the project

2009-12-09 00:08 - Holger Just

Status:	Closed	Start date:	2009-12-09
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	Projects	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
Description			
<p>The display of the bulk edit form of issues always fails if no versions are defined in the current project.</p> <p>The cause is in project_helper.rb in version_options_for_select. In case there are no versions defined grouped is an empty Hash which results in a call to options_for_select and nil as the first parameter. This function however expects an Array.</p> <p>A simple patch (against the current trunk r3136) is provided to solve the issue.</p>			

Associated revisions

Revision 3140 - 2009-12-09 10:22 - Jean-Philippe Lang

Fixed: Bulk edit of issues throws 500 if no versions are defined on the project (#4366).

History

#1 - 2009-12-09 10:16 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Fixed

Fix + test committed in [r3140](#).
Thanks.
