Redmine - Defect #4445

Unable to save custom search query with subprojects = none

2009-12-18 11:07 - Aron Rotteveel

Target version:				
Resolution:	Wont fix		**Affected version:**	

Description

Currently, there seems to be no way to create a stored search query to view just the issues to the related project. This would be very handy, as the list can get quite cluttered when more subprojects are involved.

It is possible to create the filters and save the query; when later editing the same query, however, the subproject filter has been removed.

History

#1 - 2009-12-18 16:00 - Jean-Philippe Lang

Can not reproduce with latest trunk. The filter "Subproject = none" can be saved and is not removed when editing the query.

#2 - 2009-12-18 16:23 - Aron Rotteveel

- Status changed from New to Resolved

I just updated my setup from 0.8.7-stable to trunk and experience the same. Thanks for the quick reply!

#3 - 2009-12-18 16:46 - Jean-Philippe Lang

- Status changed from Resolved to Closed

- Resolution set to Wont fix

OK thanks for the feedback.
