

## Redmine - Defect #4456

Wiki pages in search results are referenced by project number, not by project identifier.

<b>Target version:</b>	0.9.0	<b>Affected version:</b>	
<b>Resolution:</b>	Fixed		
<b>Description</b>			
<p>Even when redmine is configured to use project identifiers instead of project numbers in URLs for projects (and all sub-resources of a project), if a Wiki page is part of a search result, then this Wiki page's URL is a URL based on the project number, not the project identifier.</p> <p>For example, consider <a href="http://www.redmine.org/search/index/redmine?q=PluginGems&amp;scope=&amp;all_words=1&amp;wiki_pages=1&amp;submit=Submit">http://www.redmine.org/search/index/redmine?q=PluginGems&amp;scope=&amp;all_words=1&amp;wiki_pages=1&amp;submit=Submit</a> . The result titled "Wiki: PluginGems" has the URL <a href="http://www.redmine.org/wiki/1/PluginGems">http://www.redmine.org/wiki/1/PluginGems</a> while it should have the URL <a href="http://www.redmine.org/wiki/redmine/PluginGems">http://www.redmine.org/wiki/redmine/PluginGems</a> . Note that other redmine installations also yield URLs similar to <a href="http://www.redmine.org/projects/1/wiki/PluginGems">http://www.redmine.org/projects/1/wiki/PluginGems</a> while they should yield URLs similar to <a href="http://www.redmine.org/projects/redmine/wiki/PluginGems">http://www.redmine.org/projects/redmine/wiki/PluginGems</a>.</p>			

### Associated revisions

#### Revision 3231 - 2009-12-23 21:01 - Jean-Philippe Lang

Fixed: wiki pages in search results are referenced by project number, not by project identifier (#4456).

### History

#### #1 - 2009-12-23 20:54 - Jean-Philippe Lang

- Status changed from New to Closed
- Target version set to 0.9.0
- Resolution set to Fixed
