

## Redmine - Defect #45

### Wiki names can't have periods in them

2007-04-18 14:16 - Damien McKenna

<b>Status:</b> Closed	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	<b>Affected version:</b>
<b>Resolution:</b>	
<b>Description</b>	
<p>Related to the other bug on project names, I set the project's wiki start page to be "www.mysite.com". When I clicked on the Wiki link in that project's menu it showed that the page name had been changed to "Www.mysite.com" (notice the first letter being upper-case). Then when I tried to save the page it gave an error message saying that the page could not be found. As soon as I changed the project's wiki start page to "WwwMysiteCom" it all magiclaly worked again.</p> <p>Please either make the wiki start page field not allow periods or make the wiki system allow them, right now one is allowing them while the other is not.</p> <p>Thanks again.</p> <p>Damien</p>

Thank you

#### #2 - 2007-04-22 05:51 - Jean-Philippe Lang

Fix committed.

Periods are no longer allowed in wiki start page name.

Thanks.
