

Redmine - Defect #4543

Tests broken with ruby 1.9

2010-01-09 20:16 - Jean-Philippe Lang

Status:	Closed	Start date:	2010-01-09
Priority:	High	Due date:	
Assignee:	Eric Davis	% Done:	100%
Category:	Ruby support	Estimated time:	0.00 hour
Target version:	0.9.3	Affected version:	
Resolution:	Fixed		
Description			
All tests that use exemplars from nofx-object_daddy gem raise an error when running with ruby 1.9, making impossible to work on ruby 1.9 Redmine support.			
Example:			
<pre>25) Error: test: User#find_by_api_key should return the user if the key is found for an active user. (UserTest): NoMethodError: undefined method `each' for "C:/workspace/trunk/test/exemplars":String C:/dev/ruby/lib/ruby/gems/1.9.1/gems/nofx-object_daddy-0.4.1/lib/object_daddy.rb:98:in `gather_exemplars' C:/dev/ruby/lib/ruby/gems/1.9.1/gems/nofx-object_daddy-0.4.1/lib/object_daddy.rb:94:in `gather_exemplars' C:/dev/ruby/lib/ruby/gems/1.9.1/gems/nofx-object_daddy-0.4.1/lib/object_daddy.rb:29:in `spawn' C:/workspace/trunk/test/object_daddy_helpers.rb:5:in `generate_with_protected!' C:/workspace/trunk/test/unit/user_test.rb:180:in `block (2 levels) in <class:UserTest>' C:/dev/ruby/lib/ruby/gems/1.9.1/gems/thoughtbot-shoulda-2.10.2/lib/shoulda/context.rb:351:in `call' C:/dev/ruby/lib/ruby/gems/1.9.1/gems/thoughtbot-shoulda-2.10.2/lib/shoulda/context.rb:351:in `block in create_test_from_should_hash' C:/dev/ruby/lib/ruby/gems/1.9.1/gems/mocha-0.9.8/lib/mocha/integration/mini_test/version_131_and_above.rb:26:in `run' C:/dev/ruby/lib/ruby/gems/1.9.1/gems/activesupport-2.3.5/lib/active_support/testing/setup_and_teardown.rb:24:in `run'</pre>			
Tested with ruby 1.9.1p129 + nofx-object_daddy-0.4.1			

History

#1 - 2010-01-12 08:24 - Ryan Bigg

Howdy,

I feel this is an object_daddy bug, not a Redmine error. I'm going to formulate and submit a patch to that project now if someone hasn't already done it.

#2 - 2010-01-31 09:30 - Alexey Palazhchenko

Actually, patch is trivial: <http://github.com/AlekSi/redmine/commit/a01830beca8ea21ac3165248f18125e477268be7>

#3 - 2010-02-06 03:31 - Eric Davis

Thanks, I'm planning to build my own object_daddy and merge some other bugfixes.

#4 - 2010-02-08 19:47 - Eric Davis

- Status changed from New to Resolved

- Target version set to 1.0.0 (RC)

- % Done changed from 0 to 100

- Resolution set to Fixed

I've [forked object_daddy](#), pulled in a few bug fixes, and fixed a few Ruby 1.9 bugs in it. Redmine [r3398](#) will use my version and the tests are now running under 1.9. Several of the failures look like they are related to Codera y or the syntax highlighting features.

ruby 1.9.1p378 (2010-01-10 revision 26273) [i686-linux]

Should this be merged into 0.9-stable for 0.9.3? Jean-Philippe, could you create a 0.9.3 Version and close 0.9.2?

#5 - 2010-02-08 20:43 - Jean-Philippe Lang

Should this be merged into 0.9-stable for 0.9.3?

0.9.3 is not supposed to run with ruby 1.9, we should first make trunk pass all tests with 1.9. But if it's needed for merging other fixes in the stable branch, go ahead.

Jean-Philippe, could you create a 0.9.3 Version and close 0.9.2?

Done.

#6 - 2010-02-09 03:45 - Eric Davis

- Target version changed from 1.0.0 (RC) to 0.9.3

Ok, I'll merge the commit to 0.9.3 since it was done to fix some object_daddy bugs, not really for 1.9 support.

#7 - 2010-02-14 16:37 - Jean-Philippe Lang

- Category set to Ruby support

#8 - 2010-02-20 11:41 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged in 0.9-stable in [r3465](#).
