

Redmine - Feature #4554

mark the issue as "duplicate" when I add the related issue

Description

I'm using Redmine 0.86

open "view issue" page for issue "A",
go to "related issues" section, click "add".
select "duplicates" in the combobox, provide another issue number ("B").

expected: the original issue ("A") status is changed from whatever to "duplicate".

actual: the "related issue" field with "duplicates" item does not affect the status.

this is inconvenient. I have to add an issue to "related" list, and then also change the task status to "duplicate".
