#### #3 - 2010-01-29 21:15 - Eric Davis

I've seen a similar bug when I'm patching core Redmine methods from a plugin and I made a mistake (i.e. infinite loop). Could you try to remove all of your plugins and try to reproduce this?

You can move a plugin from vendor/plugins to vendor/ to quickly disable it.

#### #4 - 2010-02-02 14:18 - Digital Base

- Status changed from New to Resolved

removed code review plugin, then it works

i upgraded to [http://r-labs.googlecode.com/files/redmine\\_code\\_review-0.2.9.3.zip](http://r-labs.googlecode.com/files/redmine_code_review-0.2.9.3.zip) and now code review works again.

sorry for the trouble it was related to a plugin
