Redmine - Patch #4579

Missing Textilization on Document Index

2010-01-14 13:57 - Holger Just

Target version:				

Description

On the document index page, there is a teaser for each document's description. These are not textilized there although the individual document descriptions allow textile syntax.

The attached patch fixes this behavior.

Please use the **demo redmine** if you want to try things out.

#3 - 2010-01-19 00:06 - Mischa The Evil

- Category deleted (Text formatting)

- Status changed from New to Closed

This is a duplicate of issue #202. Closed as such.
