

## Redmine - Patch #4580

### Run rake db:schema:dump after rake db:migrate\_plugins

2010-01-14 14:10 - Konstantin Haase

#### Description

rake db:migrate runs rake db:schema:dump after applying all migrations. Thus you can run rake test directly after db:migrate.

This patch applies the same behavior to rake db:migrate\_plugins, so it is easier to test if your plugins did not break Redmine. Patch is based on trunk (actually, master of git mirror).
