Target version:			
Resolution:	Cant reproduce	**Affected version:**	

Description

When a parent project is changed Im having a extrange behavioir. The projects are not nested propertly eg:
- When I change the parent of a project to none, the project is shown as a child of another project , and when I open it the breadcum show me an weird nesting like if the projest was the grand-clidren of another diffrent project that is not related to it

History

#1 - 2010-01-16 11:34 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Cant reproduce

Can't reproduce. Please read **SubmittingBugs**.
