

Redmine - Patch #4635

Filter by Role clause

2010-01-22 16:06 - Dmitry Chernyak

Status:	New	Start date:	2010-01-22
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues filter	Estimated time:	0.00 hour
Target version:			
Description			
<p>We are using the roles like "Project manager" and "Tracker manager" who must to assign issues to project's actors and to control the execution flow.</p> <p>We have in common about 100 projects and one user can have different roles in different projects.</p> <p>And there is the problem for project manager to find "All unassigned issues in all managed projects".</p> <p>So this patch introduces a new filter clause "Role" which means "the role of the logged user in the project".</p>
