

Redmine - Feature #4673

Updating completion percentage on my assigned tasks on my page

2010-01-28 08:05 - Martin Drees

Status:	Closed	Start date:	2010-01-28
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:	Invalid		

Description

I want my team members to update the completion percentage of all their active tickets every evening.

Therefore it would be very helpful if they were able to change the percentage in the list of assigned tasks on "my page" without having to click every ticket open first.

Would save lots of clicks/time and would increase the convenience/compliance massively imo.

Thanks in advance
Martin

History

#1 - 2010-01-28 09:15 - Felix Schäfer

- Category set to Issues

You might be interested in a feature introduced in the 0.9 branch which basically allows you to tie the "percent done" field to the "status" field. Be aware though that this is an instance-wide either/or option (you can either tie "percent done" to "status" and won't be able to edit "percent done" for an individual issue manually, or let them be distinct).

#2 - 2017-05-07 04:12 - Go MAEDA

- File context-menu-update-done-ratio@2x.png added

- Status changed from New to Closed

- Resolution set to Invalid

You can update done ratio from context menu. Please right click an issue on My page.
