Target version:			
Resolution:			
Description Is it possible to add a member filter on the timelog details view to be able to retrieve time entries for a specific user? Use cases: <ul style="list-style-type: none">• a custom field was added to time tracking and users need to specify it on existing entries.• user wants to check his entries to assign issues or modify something if needed.

Is there any news on this? This would be a nice feature for time tracking reporting.

Thanks
Mag1c

Filters on spent time details and report do the job perfectly.

This issue could be closed.
