

Redmine - Defect #4710

syntax_highlight, wrong number of arguments (1 for 2) redering repositories/entry

2010-02-01 22:26 - Zachary Crockett

Status:	Closed	Start date:	2010-02-01
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		

Description

Quick

Probably ruby 1.9 issue. Line 5 of app/views/common/_file.rhtml has

```
syntax_highlight(filename, to_utf8(content))
```

and line 283 of app/helpers/application_helper.rb has

```
def syntax_highlight(name, content)
  type = CodeRay::FileType[name]
  type ? CodeRay.scan(content, type).html : h(content)
end
```

Looks like 2 args to me. (shrug) Getting interpreted as a hash?

Environment

Redmine version [r3358](#)
Ruby version 1.9.1 (x86_64-linux)
RubyGems version 1.3.5
Rack version 1.0
Rails version 2.3.5
Active Record version 2.3.5
Active Resource version 2.3.5
Action Mailer version 2.3.5
Active Support version 2.3.5
Application root /srv/http/nginx/redmine
Environment production
Database adapter mysql
Database schema version 20091227112908
mysql Ver 14.14 Distrib 5.1.41, for unknown-linux-gnu (x86_64) using readline 6.0
svn, version 1.6.6 (r40053) compiled Nov 24 2009, 02:01:26

Trace

Processing RepositoriesController#entry (for 68.168.165.208 at 2010-02-01 14:57:00) [GET]

History

#1 - 2010-10-30 09:12 - Brad Rushworth

- Status changed from New to Resolved

Probably ruby 1.9 issue

Ruby 1.9 is not supported yet. You have to use Ruby 1.8.x as stated above.

#2 - 2010-10-30 11:55 - Felix Schäfer

- Status changed from Resolved to Closed

- Resolution set to Invalid
