Target version:				
Resolution:	Fixed		**Affected version:**	

Description

I upgraded from 0.8.3 according to the wiki documentation, which is how I have upgraded from .7 versions forward. All appears to be working well for the most part.

However, when I navigate to Administration - Trackers, things begin to look strange on screen. If I click an existing tracker the information on the screen is garbled. If I click new I see similar results. I see nothing strange in the logs either. See attached screenshots for examples.

History

#1 - 2010-02-03 17:26 - Mark P

Sorry I forgot to choose Affected version 0.9.1. Could someone with permissions to change that, correct my oversight please.

#2 - 2010-02-03 22:53 - Will Vanderpol

Clear your browsers cache and I think your problem will be gone

#3 - 2010-02-03 23:32 - Mark P

- Status changed from New to Resolved

Yes, tried it from a browser that has never logged into our instance and it was good. Thank you for the assistance.

#4 - 2010-02-04 00:19 - Felix Schäfer

- Status changed from Resolved to Closed

- Resolution set to Fixed
