

Redmine - Defect #4849

Could not upload picture into existing issue

2010-02-15 13:36 - Andrew Rudenko

Status:	Closed	Start date:	2010-02-15
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Attachments	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		

Description

1. Create an issue
2. Update the issue but add a picture this time

Actual Results:

- Uploaded file size is 0 bytes in ./files/ directory.
- Picture is added twice 3202
- there is RackMultipart file left in the /tmp directory of my system

```
redmine@redmine.org ~ $ ls -l /tmp
-rw----- 1 redmine redmine 1424 Feb 15 13:19 RackMultipart.15052.0
```

Note: It is OK if add picture while creating a new issue.

I'm on Redmine 0.9.2.devel.3434 (PostgreSQL)

History

#1 - 2010-02-15 13:50 - Andrew Rudenko

it is from log file while submitting attachment:

```
"attachments"=>{"1"=>{"file"=>#<File:/tmp/RackMultipart20100215-27685-6392x6-0>, "description"=>""}}
```

and it is directory listing:

```
-rw----- 1 redmine redmine 1424 Feb 15 14:37 RackMultipart20100215-27685-6392x6-0
```

p.s. Apache run under apache:apache user, but the file in tmp directory has 600 permissions. I am not sure but it can be the reason.

I'm sorry to send this issue.

The problem was because of duplicated lines in app/controllers/issues_controller.rb

```
+ attachments = attach_files(@issue, params[:attachments])  
+ attachments.each {|a| journal.details << JournalDetail.new(:property => 'attachment', :prop_key => a.id, :value => a.filename)}
```

I've merged it wrongly last time so I got two duplicated file names and zero file size.

Close it please as INVALID.
