Redmine - Defect #4858

Dynamic values for Dropdown

2010-02-17 13:34 - qa query

Status:	Closed		**Start date:**	2010-02-17
Priority:	High		**Due date:**

Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	0.9.2

Description
For a Custom Dropdown field "A", I am adding list of values say "Animals", "Birds". I am creating another Custom Dropdown field "B" with values "Cat", "Dog", "Tiger", "Crow", "Swan", "Parrot". Now when I log a new issue and select "Animals" for Dropdown "A", then I should get just "Cat", "Dog" and "Tiger". When I select "Birds" I should get "Crow", "Swan" , "Parrot". So my Custom dropdown field "B" should display values based on the value selected for "A". Is there any such feature in Redmine ?

History

#1 - 2010-02-17 19:15 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Invalid

This is not a defect. This feature is not available and has already been requested a few times.
