Redmine - Feature #4887

Directories expanded with + in repository browser not preserved after using browser back button

2010-02-20 21:59 - Eric Wasylishen

Status:	Closed	**Start date:**	2010-02-20
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	UI	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Wont fix		

Description

If you:

- expand some directories in the repository browser
- click on a file
- use your browser's back button

all of the directories are contracted again, losing your place in the repository.

History

#1 - 2010-02-21 18:09 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Wont fix

This behaviour is browser specific and is due to the fact that subdirectory are loaded using a AJAX. There's no easy fix for this.
FWIW, I don't have this problem on redmine.org with Firefox 3.6.
