| Resolution: | No feedback | | |
| Description I've enabled ldap auth in Redmine. All works well, but, frequently, I do logon with a user and redmine give me the access with the profile of another user. Example: - logon with pippo (no admin) - access with pluto (with admin privileges!!!) Bye | | | |

History

#1 - 2010-02-23 22:29 - Jean-Philippe Lang

Please read [SubmittingBugs](#) and provide the application log with log level set to debug.

#2 - 2010-02-23 22:33 - Jean-Philippe Lang

- Category set to LDAP

#3 - 2011-06-13 11:57 - Jean-Baptiste Barth

- Status changed from New to Closed

- Resolution set to No feedback
