Redmine - Defect #4958

Lost password no longer flashes a confirmation message

2010-03-01 21:25 - Robert Chady

Status:	Closed	**Start date:**	2010-03-01
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Accounts / authentication	**Estimated time:**	0.00 hour
Target version:	0.9.4		
Resolution:	Fixed	**Affected version:**	

Description

When you entered a correct email in the lost password screen, it used to flash up a message 'An email with instructions to choose a new password has been sent to you.' letting the user know what was going on.

Now, if you do this, you get instantly redirected to the login page without a message, leaving the user confused on what was going on.

Associated revisions

Revision 3572 - 2010-03-12 20:22 - Jean-Philippe Lang

Do not reset session when a non logged in user request the login form (#4958).
