

Redmine - Defect #5016

link_to_if_authorized does not display an authorized linke if passing a named url

2010-03-09 14:50 - Jeff Cantrill

Status:	New	Start date:	2010-03-09
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
The link_to_if_authorized helper method does not return the anchor tag for an authorized user if it is passed a named url (e.g)			
<code>link_to_if_authorized('my label', my_named(path(@project),:class=>'icon')</code>			
The call passes options[:action] to authorize_for which is nil			

History

#1 - 2011-03-16 20:14 - Etienne Massip

Permissions are based on the controller/action pair inside a module, what permission would "my_named(path([Herve Harster](#)))" correspond to ?
