Redmine - Defect #5039

Reposman.rb on Windows

2010-03-10 17:57 - Bryce Nordgren

Status:	Closed		**Start date:**	2010-03-10
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	SCM		**Estimated time:**	0.00 hour
Target version:	0.9.4			
Resolution:	Fixed		**Affected version:**	0.9.3

Description

running Reposman on Windows fails with a "no such method uid on nilClass" error (perhaps I am paraphrasing, sorry). It appears to be treating the Windows system as if it were a *nix system. This, in turn appears to be because it is comparing RUBY_PLATFORM to mswin, and my RUBY_PLATFORM is

```
irb(main):026:0> RUBY_PLATFORM
=> "i386-mingw32"
```

I am running the [rubyinstaller](#) for windows.

This ticket is related to [#1804](#).

As a workaround, I intend to replace mswin with the above string in the reposman.rb file, but a long-term solution should probably leverage the solution in [#1804](#).

Associated revisions

Revision 3571 - 2010-03-12 19:15 - Jean-Philippe Lang

Fixed windows platform detection in reposman.rb (#5039).
