

Redmine - Defect #5042

Heading and trailing blank space in project identifier

2010-03-10 18:23 - Bruno Prado

Status:	Closed	Start date:	2010-03-10
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description Project identifier does not accept heading and/or trailing blank space (what, I think, is the correct behavior). Tough, I suggest a funcion, like trim, in PHP, to remove these blank spaces.

- Status changed from New to Closed

Closing this, it is true that users sometimes may add leading or trailing spaces, but I'm sure they quickly realize their error. I don't think we should change user input, at least not without a flash message - perhaps the user added the space(s) on purpose...

#2 - 2013-01-15 10:06 - Daniel Felix

Anyway, with the new integration of the automatic project identificator, this shouldn't be a problem. :-)
