Redmine - Defect #5064

Garbled or unsupported characters in PDF output (utf-8)

2010-03-12 19:20 - David Sedlar

Status:	Closed		**Start date:**	2010-03-12
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	0.9.3

Description

I am using Redmine 0.9.3 with the Slovenian language template (sl.ylm) and have set the two setting to this:

```
general_csv_encoding: UTF-8
general_pdf_encoding: UTF-8
```

However I still get garbled characters which should be supported and display correctly in Redmine. Even if I switch to the default English template with the above two settings changed I still get the same result.
I have added two screen shots and an example of my PDF output.

It seems like the PDF is not correctly reading or rendering the utf-8 content.

Is duplicate of Redmine - Defect #61: Broken character encoding in pdf export	**Closed**

History

#1 - 2010-03-12 19:28 - David Sedlar

Forgot to mention, the collation I'm using for MySql database is utf8_slovenian_ci (Slovenian case-insensitive).

#2 - 2010-03-12 20:08 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Duplicate

Already reported multiple times, see #61.
