<b>Category:</b>	Projects	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>			
<b>Description</b>			
Currently versions are shared with subprojects/project tree etc. but what we really need is possibility to share particular version with particular subproject. Kind regards

I am also interested by this.

To have the possibility to share a version with project A and project B who are not in the same project tree.

Do you think it is possible to do it?

**#3 - 2011-04-08 22:56 - Cassiano Monteiro**

+1!

I think that feature would be nice! I would like to be able to choose which projects are sharing a version, disregarding their relationship.
