Resolution:	Fixed	**Affected version:**	1.2.0

Description

While browsing the latest changes in the Redmine trunk on redmine.org I noticed an strange error regarding the i18N. My Redmine.org account is configured to use the English language but the truncation-message at the bottom of the revision diff view appears in a language which is certainly not English (it looks like Spanish or something).

I'll attach a screenshot of it...

Just wanted to post it here to see if its related to redmine.org only or not...

Do not cache I18n strings when truncating a long diff (#5089).

History

#1 - 2010-05-02 22:47 - Muntek Singh

I am unable to reproduce on redmine.org, nor in 0.9.4

#2 - 2010-08-09 01:19 - Jean-Baptiste Barth

- Category changed from Website (redmine.org) to SCM

- Status changed from New to 7

- Assignee changed from Jean-Philippe Lang to Jean-Baptiste Barth

Reproduced here, on redmine.org and on trunk. Didn't have the time to take a look at the code, but I think it's be related to caching.

Steps to reproduce :

- set the max diff lines to 2 or 3
- display a diff
- change your locale
- display the same diff: old locale is still here

Same goes on activity page, activity is cached and may be in the wrong locale if you change your locale.

I'll take a deeper look at it as soon as I can.

#3 - 2011-06-14 00:09 - Jean-Baptiste Barth
