this is a pretty simple patch, and posted 2 years ago, there's any chance to get it merged?

this patch expands what is explained in plugin tutorial

it allows plugins to add methods to a permission. For instance if you write a plugin to add issues from another controller, with this patch you can just call

```
add_permission :add_issues, { :issues_plugin => [:new,:create] }
```

instead of adding another permission 'add\_issues\_2'

why this patch still wasn't merged?
