

## Redmine - Feature #5112

### Texting formatting setting is global (Allow override in module level)

2010-03-18 00:19 - James Turnbull

<b>Status:</b> New	<b>Start date:</b> 2010-03-18
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Text formatting	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b> The current text formatting setting is global - ie. if the wiki is markdown then so are all the description pages and the inline ticket formatting. It'd like to make this more granular so you can have, for example, textile mark=up for the issues but markdown in the wiki.

+1 on this.

We have a redmine instance containing projects of over a decade. We would like to switch to CKeditor but up till now all is done in textile formatting. Changing the global setting to the new editor would break all existing wiki pages and issue descriptions and notes, which makes a switch impossible now.
