Description We have really lot of projects, but we don't use project description and we don't want to display this info in main project list. I almost everytime copy name of project to project description, which is redundant activity. Also ability to turn on/off displaying project description on project list page can be handy.	

History

Done in [r1088](#). Project description is no longer required.

#2 - 2008-01-20 16:42 - Maxim Krušina

Thank you! ;)
