Redmine - Defect #5297

openid not validated correctly

2010-04-12 23:10 - Niklas ...

Status:	Closed		**Start date:**	2010-04-12
Priority:	Low		**Due date:**	
Assignee:	Jean-Baptiste Barth		**% Done:**	100%
Category:	Accounts / authentication		**Estimated time:**	0.50 hour
Target version:	1.0.1			
Resolution:	Fixed		**Affected version:**	

Description

the user supplied a openid with a semicolon instead of the colon. instead of a validation / login error he got a 500. trace is:

```
NoMethodError (undefined method `downcase' for nil:NilClass):
  app/controllers/account_controller.rb:153:in `open_id_authenticate'

```

History

#1 - 2010-08-10 21:52 - Jean-Baptiste Barth

- Affected version (unused) changed from 0.9.1 to devel

- Affected version deleted (0.9.1)

Reproduced on current trunk. Actually, it's a URI or ruby-openid defect. Maybe we could find a workaround to avoid 500 error in Redmine.

#2 - 2010-08-10 23:12 - Jean-Baptiste Barth

- Status changed from New to Resolved

- Assignee set to Jean-Baptiste Barth

- Target version set to 1.0.1

- % Done changed from 0 to 100

- Resolution set to Fixed

Sorry, misread the trace on my laptop, the problem is inside our wrapper in vendor/plugins/open_id_authentication. Patch applied in [r3933](#), but there may be other related bugs, don't hesitate to reopen if so.

#3 - 2010-08-19 06:35 - Eric Davis

- Status changed from Resolved to Closed

Merged to 1.0-stable for release in 1.0.1.
