

Redmine - Patch #5379

Updated Polish translation for 0.9.4 / trunk

Description I attach an update to pl.yml, after contacting one of the current translators. Here I improved some spelling, added missing strings, and more forms of some words (for example, "few:" form in addition to "one:" and "other:" forms). One especially irritating errors was incorrect translation of "blocks" status for an issue (which denotes other issues blocked by current one). This BTW started my whole effort :) All files (including original *.yml as well as *.diff files) can be found at: http://ics.p.lodz.pl/~wiktorw/redmine/0.9.4/
