

Redmine - Defect #5387

Invalid autenticity token

2010-04-27 11:52 - Lluís Vilanova

Status:	Closed	Start date:	2010-04-27
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	0.9.3
Resolution:	Duplicate		

Description

Some operations, even if executed as 'admin', fail with the error message *Invalid autenticity token*,

I've tried both with debian's epiphany version 2.30.2-1 and iceweasel 3.5.9-2. Redmine debian's 0.9.3-3 package with sqlite (with and without cleaning cookies stored by the redmine server in our network).

The error is strange, as some operations do indeed work, and the log shows the same token for all failing and non-failing operations.

Destroy repository (succeeds):

```
Processing RepositoriesController#destroy (for <IP> at 2010-04-27 11:40:47) [POST]
Parameters: {"action"=>"destroy", "authenticity_token"=>"0c1460674eb112a01315c219bf8b8b44aa473668", "id"=>"sciexp2", "controller"=>"repositories"}
Redirected to tabrepositoryactionsettingscontrollerprojectsidSciExp2
Completed in 40ms (DB: 20) | 302 Found [https://<server>/projects/sciexp2/repository/destroy]
```

Go back to settings and add the 'issues' module to the project (fails):

```
Processing ProjectsController#settings (for <IP> at 2010-04-27 11:40:47) [GET]
Parameters: {"action"=>"settings", "id"=>"sciexp2", "controller"=>"projects", "tab"=>"repository"}
Rendering template within layouts/base
Rendering projects/settings
Completed in 122ms (View: 113, DB: 2) | 200 OK [https://<server>/projects/sciexp2/settings/repository]
```

```
Processing ProjectsController#modules (for <IP> at 2010-04-27 11:41:42) [POST]
Parameters: {"enabled_modules"=>["issue_tracking", "wiki", "repository"], "commit"=>"Save", "action"=>"modules", "authenticity_token"=>"0c1460674eb112a01315c219bf8b8b44aa473668", "id"=>"sciexp2", "controller"=>"projects"}
Rendering template within layouts/base
```

Go back, and re-add the subversion URI for the repository (succeeds):

```
Processing ProjectsController#settings (for <IP> at 2010-04-27 11:41:58) [GET]
Parameters: {"action"=>"settings", "id"=>"sciexp2", "controller"=>"projects", "tab"=>"repository"}
Rendering template within layouts/base
Rendering projects/settings
Completed in 119ms (View: 110, DB: 3) | 200 OK [https://<server>/projects/sciexp2/settings/repository]
```

```
Processing RepositoriesController#edit (for <IP> at 2010-04-27 11:42:05) [GET]
Parameters: {"action"=>"edit", "authenticity_token"=>"0c1460674eb112a01315c219bf8b8b44aa473668", "id"=>"sciexp2", "controller"=>"repositories", "repository_scm"=>"Subversion"}
Completed in 14ms (View: 7, DB: 2) | 200 OK [https://<server>/projects/sciexp2/repository/edit?authenticity_token=0c1460674eb112a01315c219bf8b8b44aa473668&authenticity_token=0c1460674eb112a01315c219bf8b8b44aa473668&repository_scm=Subversion]
```

```
Processing RepositoriesController#edit (for <IP> at 2010-04-27 11:42:23) [POST]
Parameters: {"repository"=>{"url"=>"file:///home/code/svn/sciexp2", "login"=>""}, "commit"=>"Create", "action"=>"edit", "authenticity_token"=>"0c1460674eb112a01315c219bf8b8b44aa473668", "id"=>"s
```

```
ciexp2", "controller"=>"repositories", "ignore"=>"", "repository_scm"=>"Subversion"}
Completed in 23ms (View: 10, DB: 2) | 200 OK [https://<server>/projects/sciexp2/repository/edit]
```

Thanks a lot for your wonderful work.

History

#1 - 2010-04-27 11:59 - Lluís Vilanova

I cannot edit the initial bug report, but I've mistyped the error message. It is *Invalid form authenticity token..*

#2 - 2010-05-10 08:59 - Fritz brause

maybe same problem as in [#5051](#)

#3 - 2010-05-14 19:18 - Lluís Vilanova

- Status changed from New to Resolved
- % Done changed from 0 to 100

After upgrading my installation to debian's 0.9.4-2 version, the problem disappeared.

As the debian changelog says, this is solved [here](#), which already exists as patch [#3968](#).

Note that this also probably solves defect [#5051](#).

#4 - 2010-05-15 20:58 - Felix Schäfer

- Status changed from Resolved to Closed
- Resolution set to Duplicate

Closing this in favor of [#3968](#).
