<b>Description</b>			
The Gravatar feature is working great for me but it took asking on irc to realize I had to go to gravatar.com to change my icon. It would be cool to have the users Gravatar on their "My account" page and have a link under it to "edit icon" that would take you to gravatar.com

+1

This feature removes my task to explain to my colleagues that it is necessary to register in gravatar.com so that the gravator icons are displayed.

##### #2 - 2010-05-07 08:15 - Felix Schäfer

- Category changed from Accounts / authentication to UI

- Target version set to 0.9.5

I think this is more of a UI thing. Can we get this in for version:0.9.5?

- Target version changed from 0.9.5 to 1.0.0 (RC)

Pushing this to 1.0, I don't consider it a must have for 0.9.5.

- Target version deleted (*1.0.0 (RC)*)

I'll review this for a later version, trying to keep new features out of 1.0 right now.

I am stepping down from working on Redmine. If someone else is interesting in working on this issue, feel free to reassign it to them.
