if i tried to update from 0.9.3 to 0.9.4 i used as the usual rake-commands, but i also get the segmentation fault:

```
rake db:migrate RAILS_ENV=production
(in /home/htdocs/redmine/versions/redmine-0.9.4)
/usr/local/bin/rake:19: [BUG] Segmentation fault
ruby 1.8.6 (2007-09-23) [x86_64-linux]
```

## History

### #1 - 2010-05-13 16:11 - Felix Schäfer

See what the trace is (add --trace to the command), but I'd say it's a problem with rou rake/ruby/platform rather than redmine.

### #2 - 2010-05-22 10:37 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to No feedback
