

Redmine - Defect #5546

Password match check in use when changing to ldap

2010-05-18 12:23 - Javier Turégano Molina

<b>Status:</b>	New	<b>Start date:</b>	2010-05-18
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	LDAP	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	0.9.3
<b>Resolution:</b>			
<b>Description</b>			
When an administrator changes the authentication schema for an user to ldap, the system still checks if the password boxes match, as if you were trying to change them.			
This ends with an error if you don't enter the second password field and this is not necessary because it will be checked against the ldap tree.			

History

#1 - 2010-05-18 13:20 - Javier Turégano Molina

This happened in an instalation with projects migrated from Trac. Don't know if it happens with normal users which are changing authentication schema.
