

## Redmine - Defect #5546

### Password match check in use when changing to ldap

2010-05-18 12:23 - Javier Turégano Molina

<b>Status:</b>	New	<b>Start date:</b>	2010-05-18
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	LDAP	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	0.9.3
<b>Resolution:</b>			
<b>Description</b>			
<p>When an administrator changes the authentication schema for an user to ldap, the system still checks if the password boxes match, as if you were trying to change them.</p> <p>This ends with an error if you don't enter the second password field and this is not necessary because it will be checked against the ldap tree.</p>			

#### History

##### #1 - 2010-05-18 13:20 - Javier Turégano Molina

This happened in an instalation with projects migrated from Trac. Don't know if it happens with normal users which are changing authentication schema.
