

Redmine - Feature #5594

Improve MailHandler's keyword handling

2010-05-25 18:43 - Eric Davis

Status:	Closed	Start date:	2010-05-25
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	1.1.0		
Resolution:	Fixed		
Description I have a few changes to make to MailHandler so it's more flexible in how it handles keywords (e.g. Project.find_by_identifier Project.find_by_name Project.find_by_id).

Revision 3764 - 2010-05-29 02:05 - Eric Davis

Add an "Assigned To" keyword to receiving email. #5594

Will take a user's email address, login, or full name.

History

It's related to this [#3706](#) issue.

On <http://www.redmine.org/issues/3706#note-6> I made a note about using the TO: for assignment and CC: for watchlist (that already works).

Please, rewrite MailHandler. Imagine other languages than english. We don't have fields like "Tracker", "Status" etc. and you can not force people to use English in emails. And the upper level is ...custom fields :-). Thanks in advance. Petr

#3 - 2010-06-15 00:40 - Eric Davis

- Target version changed from 1.0.0 (RC) to 1.1.0

#4 - 2010-07-06 15:32 - wei hua

- % Done changed from 0 to 50

wee> ** h3. h1. --++

#5 - 2010-07-06 15:54 - Felix Schäfer

- % Done changed from 50 to 0

#6 - 2010-09-26 20:25 - Be Fio

It would be really great if it were possible for the mailhandler to change fields related to issues, even custom ones (no matter what type they are). It would be a really nice feature, and an awesome addon to the already good system. And I don't know about what you plan on improving, but perhaps also improve how it handles current keywords, e.g. better keyword handling when you use "<Keyword>: " in an email.. Can't wait!! :D :)

Yes, see [r4394](#).

#11 - 2010-11-12 14:31 - Petr Pospisil

Super. Thank you.

#12 - 2010-12-12 17:02 - Jean-Philippe Lang

- Status changed from 7 to Closed

- Resolution set to Fixed

I think we can close it, open new tickets for new improvements.
