Description Hi, I would be a lot easier if it is possible to unselect all tracks during project creation, as they are ticked by default when there are 30 tracks everytime i have to uncheck each of them. Also for the memebbers tab of project settings, the right column has a list of members, it would be helpful to have two links with select all and unselect all members. Thanks a lot Xingdong Bian

Thanks! Nick Peelman!

The changes works for me very well, just to point out the first diff is for file: `app/views/projects/_form.rhtml`

I've wrapped-up both of the patches and rebased them against the Redmine trunk at [r4425](#) ([source:/trunk@4425](#)).

Thanks Misha, a job change has caused me to not be able to work on redmine stuff for a while now. glad to see that there's still hope for some of my patches :)
