

Redmine - Defect #5677

rails 2.3.8 - time_entries form rendered with escaped (non html) form fields

2010-06-12 00:52 - Jodi Showers

Status:	Closed	Start date:	2010-06-12
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description (seems to be a 2.3.8 conflict - html escaping is being forced? - hopefully will help you when you bump up the rails version) When updating time_entry (#update), without providing Activity and/or Hours, the form is rendered with both the Hours and Activity fields rendered with html escaped <code><iut id="time_entry_hours" name="time_entry[hours]" size="6" type="text" /></code> verified in both firefox 3.5.9, and chrome 5.0.375.70 \$ svn info grep Revision Revision: 3768 \$ rails --version Rails 2.3.8 \$ ruby --version ruby 1.8.7 (2010-04-19 patchlevel 253) [x86_64-linux], MBARI 0x6770, Ruby Enterprise Edition 2010.02 \$ mysql --version mysql Ver 14.12 Distrib 5.0.22, for pc-linux-gnu (x86_64) using readline 5.1			

History

#1 - 2010-06-12 09:00 - Felix Schäfer

- Category changed from Time tracking to UI
- Status changed from New to Closed
- Resolution set to Invalid

This is a UI problem, and not a defect because the current stable and trunk are supported against rails 2.3.5. Please open a feature request if you think 2.3.8 should be supported (and a reason other than rails's been updated might be good, the version thing is pretty much moot as ruby gems supports concurrent versions installed at the same time).
