

Redmine - Feature #5686

Allow to hide custom fields based on value of core fields (status)

2010-06-14 14:05 - Maxim Nikolaevich

Status:	New	Start date:	2010-06-14
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:			
Resolution:			
<b>Description</b> For example in this tracker i don't need to see "resolution" field when i create task. i need "resolution" field only in time "resolved" status. also i need to make "resolution" field required field in this status (now it's possible to do that in all status only - but in new status this field does not required...)  P.S. This issue is main reason why i can't use many custom fields in my project.			

History

#1 - 2010-08-03 23:10 - Sam Hartsfield

Appears to be related to [#1917](#) and [#1171](#), though this one also mentions hiding the field until it's required.

I pretty much care about the resolution field, and I wouldn't mind if that were a default field.

#2 - 2011-03-23 11:33 - Toshi MARUYAMA

- Category set to Custom fields

#3 - 2011-11-22 00:03 - Maxim Nikolaevich

Can anybody to set relations between of issues?

#4 - 2011-11-22 04:29 - Mischa The Evil

I don't think it's related in such a way that it's worth these two issue relations.

#5 - 2013-01-27 04:57 - Mischa The Evil

- Subject changed from Allow hide some custom field in various status of task to Allow to hide custom fields based on value of core fields (status)

Requested on forum: [Is there a way to configure the issue fields become visib...](#)
