

Redmine - Defect #5701

Issues decription text is shown twice in Roadmap details page.

2010-06-16 19:59 - Nicolas Zinopoulos

Status:	Closed	Start date:	2010-06-16
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Roadmap	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		

Description

Defect description

When displaying the details of a given version in the Roadmap page (/versions/show/), the description of each issue is shown twice on the same line in the Related Issues box. See attached screen capture.

Configuration information

- MySQL 5.0.77-community-nt
- Ruby 1.8.6
- Rails 2.3.5
- Redmine 0.9.4.devel.3767

History

#1 - 2010-06-16 22:00 - Felix Schäfer

Can't reproduce... Can you please post the output of RAILS_ENV=production script/server? Thanks.

#2 - 2010-06-17 18:29 - Nicolas Zinopoulos

After several tests, I think I am closer to finding the cause of my problem.

First, I hooked my production database on a clean checkout of Redmine trunk (without any plugins) and found that the problem had dissapeared (I should have done this in the first place, before posting my message, sorry...).

I then switched back to my normal Redmine installation and started removing the plugins one by one, testing in between.

This way I found that the problem is apparently caused by the GOYELLO Schedules plugin.

So this is not a Redmine core problem; my apologies to all for this false alert... And by the way, thank you for a great application and community !

#3 - 2010-06-17 21:47 - Felix Schäfer

- Status changed from New to Closed
- Resolution set to Invalid

No harm done, and thanks for the flowers (though those doing the heavy lifting don't come by here much...) :-)

I don't know what involvement the go yellow people still have in their plugins or in maintaining them, but try contacting them about this problem.

#4 - 2010-12-29 16:19 - razumuhin map

- File roadmap.patch added
