

Redmine - Feature #5782

Rename "Boards" to "Forums" in project settings=>Modules

2010-06-29 20:01 - Michael Koch

Resolution:	Fixed		

Description

The module for Forums is labeled Boards under the "Modules" section in project settings. Because of this, some confusion has occurred with users as they sometimes fail to connect the two. While this isnt a huge issue, it would be nice if under the Modules section, it was labeled Forums instead for usability purposes.

Thanks!
Mike
