Description

When we have redmine_sprints plugin installed its conflicted with redmine_screenshot_paste plugin as follows

on Dashboard "Add Task" Link never work if we don't duplicate the folder
vendor/plugins/redmine_screenshot_paste/app/views/issues to
vendor/plugins/redmine_screenshot_paste/app/views/issue_sprints.....

here is the traceback....

```
ActionView::TemplateError (Missing template issue_sprints/_screenshot.erb in view path vendor/plugins/redmine_screenshot_paste/app/views:vendor/plugins/redmine_sprints/app/views:app/views) on line #58 of vendor/plugins/redmine_sprints/app/views/issue_sprints/_form.rhtml:

if I create another copy the vendor/plugins/redmine_screenshot_paste/app/views/issues with
vendor/plugins/redmine_screenshot_paste/app/views/issue_sprints

then it shows multiple documents - but not Internal Server Error 500

The attached patch forces the correct path in redmine_screenshot_paste.

However, I think the base of the issue is inside the redmine_sprints plugin as it should not require the changes.

yes I too thinking the same - as without redmine_sprints screenshot_paste works fine.

and its redmine_sprints plugin only which gets failed....as "add task" link is not working with it....if installed screenshot_paste plugin.

- Status changed from New to Closed

- Resolution set to Invalid

Again, please contact the author of the redmine_sprints plugin, this is not the right place for it.
