

Redmine - Defect #5832

project identifier named issues fails

2010-07-07 18:03 - Markus Sackmann

Status:	Closed	Start date:	2010-07-07
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	0.9.4
Resolution:	No feedback		
Description If you give a project identifier the name 'issues' you won't be able to change further changes in project settings. After click on save in project settings Redmine stops at URL /projects/edit/issues with following error: 404 The page you were trying to access doesn't exist or has been removed. Redmine version 0.9.4.stable MySQL version 5.1.41 (i486) Ruby version 1.8.7 (i486-linux) RubyGems version 1.3.5 Rails version 2.2.3 Active Record version 2.2.3 Action Pack version 2.2.3 Active Resource version 2.2.3 Action Mailer version 2.2.3 Active Support version 2.2.3 Edge Rails revision unknown Application root /usr/share/redmine Environment production Database adapter mysql Database schema version 20100221100219			

History

- #1 - 2010-07-07 18:57 - Felix Schäfer
- Can't reproduce on current trunk. Please note that you need rails 2.3.5, rack 1.0.x for current redmine, and that the current mysql gem doesn't support mysql 5.1.
- #2 - 2010-12-30 03:49 - Mischa The Evil
- Status changed from New to Closed
 - Resolution set to No feedback
- #3 - 2010-12-30 03:50 - Mischa The Evil
- Forget to mention that I'm too no able to reproduce this on current trunk.
