

## Redmine - Patch #5838

### add call to :view\_repositories\_show\_contextual hook in app/views/repositories/revision.rhtml

2010-07-08 12:41 - chantra .

<b>Status:</b>	New	<b>Start date:</b>	2010-07-08
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Hook requests	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
<p>This hook is called in quite a few places, but in order to get my <a href="#">Git Revision Download</a> working properly, I needed to override <a href="source:trunk/app/views/repositories/revision.rhtml">source:trunk/app/views/repositories/revision.rhtml</a></p> <p>see:</p> <p><a href="http://redmine.debuntu.org/projects/gitrevision-download/repository/revisions/master/changes/app/views/repositories/revision.rhtml">http://redmine.debuntu.org/projects/gitrevision-download/repository/revisions/master/changes/app/views/repositories/revision.rhtml</a></p> <p>I would appreciate to have this hook called from <a href="source:trunk/app/views/repositories/revision.rhtml">source:trunk/app/views/repositories/revision.rhtml</a> as this would prevent overriding customized redmine UI.</p> <p>It is somehow a follow up on <a href="#">#2073</a></p> <p>Tks</p>
