

Redmine - Defect #5896

"Assigned to" text in issue comments is "incorrect"

2010-07-17 23:18 - Be Fio

Status:	Closed	Start date:	2010-07-17
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description I was browsing Redmine issues here, and in #5158 , I noticed it says "Assigned to set to #{name}". Wouldn't it be better if it simply said "Assigned to #{name}"? "Assigned to set to" is technically incorrect and doesn't sound or look correct.			
Related issues: Is duplicate of Redmine - Defect #3922: Bad english arround "Assigned to" tex... <div>Closed2009-09-25</div>			

History

#1 - 2010-07-18 12:35 - Felix Schäfer

- Category changed from Issues to UI

The problem is that the journal entries are generated like "<field name> set to <new value of field name>", and in the case of "assigned to", well it sounds awkward. The other solution would be to change the field name to "assignee".

#2 - 2010-07-18 12:42 - Jean-Baptiste Barth

- Resolution set to Duplicate

It has already been reported in [#3922](#).

#3 - 2010-07-18 19:05 - Felix Schäfer

- Status changed from New to Closed

I had been looking for that one, thanks JB.

#4 - 2010-07-18 22:20 - Jean-Baptiste Barth

Not easy to find, I changed the title there to be more explicit.
