Target version:			
Resolution:	Fixed		

Description

Holger,

Can you please setup 1.0-stable on CI Server?

Thanks

History

#1 - 2010-07-19 11:19 - Gregor Schmidt

Should we keep up the 0.9-stable branch or is it considered obsolete?

#2 - 2010-07-19 14:49 - Holger Just

I think, we should keep the 0.9 branch as it is still supported. There should be not much overhead here as there shouldn't be many putbacks there.

- *% Done changed from 0 to 100*

- *Resolution set to Fixed*

Okay, the cc.rb on http://ci.finn.de was updated with the 1.0-stable branch.

Thanks goes out to Gregor Schmidt for making it possible.

#5 - 2010-07-19 22:37 - Mischa The Evil

Slight addition: maybe http://ci.finn.de/documentation should be updated also? ;)

#6 - 2010-07-20 11:58 - Gregor Schmidt

- *Status changed from Closed to Reopened*

- *% Done changed from 100 to 50*

Thanks Mischa for the pointer. I'm still looking for feedback concerning the status of 0.9-stable. Afterwards, I wanted to update the documentation.

Keep 0.9-stable for now. 1.0-stable is in RC so technically 0.9-stable is still active (it will probably only get very severe security patches).
