Setup			
<ul style="list-style-type: none"><li>Trackers: Support, Bug, and Feature</li><li>Projects: MyProject, Project2</li><li>Issue: 12345 in the Support tracker</li></ul>			
Problem			
<p>Say I disable the Support tracker for MyProject, then try to move issue 12345 from MyProject to Project2. Now it can't be done, error is</p> <pre>notice_failed_to_save_issues: "Failed to save {{count}} issue(s) on {{total}} selected: {{ids}}."</pre> <p>I have to first change the Tracker to enabled one in target project, then move action is sucess.</p> <p>Can you add "default tracker" setting per project and insert simple check to set tracker to default if source issue's tracker is disabled in target project?</p>

Moving an issue to an other project with a tracker that does not exist in the target project the first possible tracker is assigned automaticly.

So the error message is fixed.
